

AURIS

MYSTiK

As a company dedicated to embracing innovation, Auris has chosen to integrate both traditional and state-of-the-art materials into the production of their turntables. Introducing the MYSTiK, crafted from the advanced Kerrock® composite material renowned for its exceptional vibration resistance and durability. Characterized by a sleek and modern design, the MYSTiK turntable embodies minimalist aesthetics, seamlessly complementing any environment while delivering outstanding audio performance and mechanical precision.

With its compact dimensions, the MYSTiK effortlessly fits into any space, making it a versatile addition to your audio setup. Designed to be easily accommodated on standard racks, it offers convenience without compromising on quality. Purchase of the MYSTiK turntable includes a plug-and-play device complete with a pre-installed cartridge and cable for seamless connection to your amplifier, ensuring a hassle-free and immersive listening experience.

Tone Arm

Experience unparalleled precision in audio playback with the Tonarm T809. Crafted with meticulous attention to detail, this revolutionary tonearm elevates your listening to new heights of sonic excellence. Its ingenious design effectively dampens vibrations, ensuring unparalleled clarity and fidelity in your favorite compositions. Say goodbye to unwanted resonances and hello to a new dimension of musical immersion. Whether you're an audiophile or casual listener, the Tonarm T809 promises an unmatched sonic journey, revealing layers of detail previously unheard.

Sub Platter

Experience performance with the MYSTiK's cutting-edge sub platter design. Its substantial 10mm shaft eliminates wow and flutter, delivering extraordinary inertia for pristine music reproduction. Meticulously minimized vibrations ensure consistently faithful and precise audio. Crafted from cemented carbide metal with exceptional hardness, the sub platter guarantees long-term durability and stability, providing an unmatched listening experience that lasts.

Bearing

At Auris, we understand the importance of durability and reliability in a turntable. That's why the MYSTiK incorporates a bronze main hub central bearing in its design. This choice of material offers exceptional service life, surpassing traditional brass alternatives. By reducing stress on the bearing itself, we ensure optimal performance and longevity, allowing you to enjoy your music collection for years to come.

Specification

- Speed - 33,3 rpm/45rpm Switch select
- Drive principle - Belt drive
- Platter - 299mm/11.77" Acrylic
- Main Bearing - Ceramic ball, Bronze cylinder
- Speed Variance - 33,3 +/- 0,12% 45 +/- 0,12%
- Tonearm - T80g
- Tonearm effective arm mass - 11 gr / 0.024 lbs
- Overhang - 18mm / 0.70"
- Tracking Force - 5-40mN
- Tilt Angle - 24 °
- Cartridge Compliance - 6-11 gr / 0.013-0.024 lbs
- Dimensions - 400 x 300 x 110mm / 15.75" x 11.81" x 4.33"
- Weight - 4.6 kg / 10.14 lbs
